Please briefly describe **main success and difficulties** related to this specific event, if any. Please provide suggestions for similar or future events (including improvements you would like to apply in the next events you will organize).

main success: to organize roundtables involving stakeholders on the bases of their expertise (companies for the actions that involve companies, scientific partner for the actions related to their know how etc.) is the best way to have an effective contribution from them.

difficulties: at this stage it was no possible to establish exactly the specific contribution for the actions from each stakeholders involved in it. After collecting more information from them (no-profit and cultural associations included), the action plan will be more detailed.
